TerraWise s. r. o. - EU Partner Profile

Sustainability | ESG | SME Green Transformation | Environmental Education | Project Support

1. Organisation Overview

TerraWise s. r. o. is a Slovak sustainability consultancy focused on ESG, energy efficiency, environmental education, sustainable business transformation, and practical support for small and medium-sized enterprises.

Our mission is to help organisations understand sustainability in a clear, practical and business-oriented way. We support companies, schools, communities and project partners in identifying environmental and social challenges, developing practical solutions, improving ESG readiness and building capacity for a more sustainable future.

Our vision is:

A world where responsible business leads to a better environment.

3. Our Role in EU Projects

TerraWise can act as an expert, implementation, training, dissemination or project support partner in EU-funded projects related to sustainability, ESG, SME transformation, environmental education, energy efficiency and responsible business.

We are particularly suitable for projects where practical business engagement, SME communication, education, sustainability assessment and project outputs are required.

TerraWise can support EU projects through:

- research and needs analysis,
- ESG methodology and assessment,
- stakeholder engagement,
- SME outreach and pilot activities,
- training and capacity building,
- environmental education,
- reporting and preparation of project outputs,
- dissemination and communication,
- project coordination support,
- practical implementation of sustainability activities.

4. Key Areas of Expertise

ESG & Sustainability

TerraWise supports organisations in understanding and improving their ESG performance. We focus on practical, accessible and SME-friendly ESG solutions.

Our ESG capacity includes:

- ESG questionnaires and assessment frameworks,
- sustainability readiness assessments,
- ESG scoring and evaluation concepts,
- recommendations for ESG improvement,
- basic ESG reporting support,
- identification of environmental, social and governance risks,
- support for companies preparing for supply chain and market expectations.

TerraWise is also developing its own concept of online ESG assessment and certification for companies, aimed at making ESG more accessible to small and medium-sized enterprises without unnecessary administrative burden.

SME Green Transformation

Small and medium-sized enterprises are often expected to respond to sustainability expectations without having dedicated ESG teams or complex internal resources. TerraWise helps translate sustainability requirements into practical business actions.

We can support SME-focused projects through:

- mapping SME needs and barriers,
- designing practical sustainability tools,
- engaging SMEs in pilot activities,
- preparing simple ESG and sustainability guidance,
- identifying opportunities for energy, waste and process improvements,
- helping SMEs understand environmental and social responsibility in business terms.

Energy Efficiency & Environmental Impact

TerraWise supports energy efficiency, resource saving and environmental impact reduction as key parts of sustainable business transformation.

We can contribute to projects focused on:

- energy consumption awareness,
- energy efficiency measures,
- resource saving,
- CO_2 impact understanding,
- environmental footprint reduction,
- practical recommendations for companies and organisations,
- awareness raising around energy, waste and sustainability.

Our approach connects environmental benefits with operational and financial efficiency.

Environmental Education & Awareness

TerraWise believes that sustainability must be understandable, accessible and practical. We support environmental education for businesses, schools, communities and wider audiences.

We can deliver:

- workshops and training sessions,
- educational materials,

- awareness campaigns,
- practical sustainability exercises,
- youth and school-focused activities,
- community engagement around environmental topics,
- simplified explanations of Green Deal, ESG, climate responsibility and sustainable behaviour.

TerraWise also uses the educational concept **Green Monster / Zelená Príšerka**, a friendly communication tool designed to make sustainability topics more understandable, especially for younger audiences and the general public.

Operations, Leadership & Project Delivery

A key strength of TerraWise is the combination of sustainability knowledge with strong practical experience in operations, logistics, process improvement, leadership and team management.

This enables us to support projects not only with ideas and content, but also with practical delivery.

We can support:

- project planning,
- activity coordination,
- work package support,
- stakeholder communication,
- deadline and deliverable tracking,
- meeting organisation,
- action plans,
- process setup,
- risk identification,
- monitoring and final reporting inputs.

Our project added value is the ability to connect sustainability goals with practical execution.

5. Company Capacity

TerraWise can deliver the following project activities:

Research & Analysis

- desktop research,
- collection of relevant data,
- analysis of target group needs,
- market and trend mapping,
- legislative and policy environment review,
- preparation of questionnaires and surveys,
- evaluation of responses,
- development of project recommendations,
- comparison of good practice examples from Slovakia, the UK and the EU.

ESG Methodology & Assessment

- ESG questionnaires,
- sustainability assessment frameworks,
- SME ESG readiness tools,
- ESG scoring systems,
- recommendations for improvement,
- ESG-related project methodologies,
- pilot ESG assessments,
- practical outputs for businesses.

Training & Workshops

- ESG and sustainability training,
- energy efficiency workshops,
- environmental responsibility training,
- leadership and change management workshops,
- SME capacity-building activities,
- educational activities for schools and young people,
- online or in-person sessions,
- participant feedback and impact evaluation.

Stakeholder Engagement

- identification of relevant stakeholders,
- communication with SMEs,

- outreach to companies and partners,
- organisation of meetings and roundtables,
- engagement of schools, municipalities and communities,
- collection of feedback,
- relationship building,
- connection of Slovak, UK and EU networks.

Reporting & Project Outputs

- project reports,
- analytical reports,
- ESG assessments,
- recommendations,
- methodology documents,
- training materials,
- presentations,
- case studies,
- newsletters and articles,
- social media communication materials,
- final report inputs.

Project Management Support

- coordination of assigned activities,
- support with work package planning,
- monitoring deadlines and deliverables,
- communication with partners,
- preparation of meeting notes,
- action plans,
- risk tracking,
- support with monitoring and final reports,
- practical process setup.

6. Possible Roles in EU-Funded Projects

Role	TerraWise Contribution
ESG / Sustainability Partner	ESG methodology, assessment, recommendations, training
SME Engagement Partner	SME outreach, communication with entrepreneurs, pilot activities
Training Partner	Workshops, educational materials, capacity building
Research Partner	Needs analysis, surveys, data evaluation, reports
Dissemination Partner	Articles, campaigns, newsletters, public communication, social media
Project Support Partner	Coordination of activities, reporting, documentation, project administration
Pilot Implementation Partner	Testing tools or solutions with companies, schools or communities
Environmental Education Partner	Sustainability awareness, school/community activities, Green Monster concept

7. Target Groups We Can Work With

TerraWise can engage and support a wide range of target groups, including:

- small and medium-sized enterprises,
- manufacturing companies,
- logistics and operational businesses,
- schools and educational organisations,
- municipalities and local communities,
- professional associations,
- entrepreneurs and business networks,
- sustainability-focused organisations,
- suppliers of green solutions,
- Slovak communities abroad,
- project partners across Slovakia, the UK and the EU.

8. Relevant Project Themes

TerraWise is interested in joining or developing EU-funded projects focused on:

- SME green transformation,
- ESG readiness and sustainability reporting,
- environmental education,
- energy efficiency,

- circular economy,
- climate awareness,
- sustainable entrepreneurship,
- responsible business,
- digital tools for ESG and sustainability,
- youth and community sustainability education,
- green skills and capacity building,
- sustainable supply chains,
- cross-border cooperation between Slovakia, the UK and EU partners.

9. Relevant EU Programmes

TerraWise is open to cooperation under programmes such as:

- **Erasmus+**
- **Interreg**
- **Interreg Danube Region**
- **Interreg Central Europe**
- **Horizon Europe**
- **LIFE Programme**
- **Digital Europe**
- **European Social Fund Plus**
- **European Regional Development Fund**
- **Creative Europe**, where sustainability education and communication are relevant

We are open to joining consortia as a project partner, associated partner, implementation partner or expert contributor, depending on the structure and requirements of the project.

10. Existing Foundations & Internal Policies

TerraWise is developing a solid internal policy and compliance framework to support responsible and trustworthy project participation.

Our internal framework includes:

- **Gender Equality Plan**
- **Diversity, Equity & Inclusion Policy**

- **GDPR / Data Protection Policy**
- **Environmental Policy**
- **Compliance Policy**
- **Conflict of Interest Policy**
- **Ethics & Integrity Statement**
- **Anti-Fraud & Anti-Corruption Policy**

These documents support our commitment to transparency, equality, data protection, environmental responsibility, ethical behaviour and responsible project delivery.

11. Partnerships & Network

TerraWise actively builds partnerships with organisations, experts and institutions that support sustainability, education, innovation and responsible business.

Our network includes cooperation or engagement with:

- business and professional communities,
- sustainability and ESG experts,
- educational organisations,
- technical and academic partners,
- SME networks,
- Slovak and UK-based professional communities,
- providers of green and energy-related solutions.

TerraWise is particularly interested in partnerships where sustainability is translated into practical action for companies, schools, communities and local economies.

12. Why Partner With TerraWise

TerraWise brings a combination of sustainability focus, business understanding and practical delivery experience.

Our strengths include:

- practical ESG and sustainability approach,
- SME-friendly communication,
- experience in operations, logistics and process improvement,
- ability to translate complex topics into clear actions,
- training and educational capacity,

- strong stakeholder engagement skills,
- Slovakia–UK perspective,
- focus on measurable and useful project outputs,
- commitment to transparency, responsibility and continuous improvement.

We do not see sustainability as a box-ticking exercise. We see it as a practical transformation journey that must make sense for people, organisations and the environment.

13. Example Contribution to a Project

In a typical EU-funded project, TerraWise could contribute by:

1. conducting research into SME sustainability needs,
2. preparing ESG readiness questionnaires,
3. engaging businesses, schools or communities,
4. organising workshops and training sessions,
5. supporting pilot testing of sustainability tools,
6. preparing practical recommendations and case studies,
7. supporting dissemination through articles, newsletters and social media,
8. contributing to project reporting and final outputs.

This makes TerraWise suitable for both content-focused and implementation-focused project roles.
